SERVICE ROBOT · ROBOTIX MARKET

CruZR 1S

Cloud-based intelligent
service robot for hotels,
retail, healthcare and
corporate spaces

A humanoid ambassador that greets,
guides, answers and promotes — for a full
working day on one charge.

A front-of-house presence that never tires

Cruze 1S is UBTECH's cloud-based intelligent service robot for customer-facing spaces. A humanoid silhouette, an expressive face and two articulated arms make it approachable; centimetre-level navigation, a multilingual language model and a fleet-management cloud make it useful — greeting visitors, guiding them, answering their questions and promoting what you offer.

Greeting & consultation

Greets visitors proactively, with VIP welcome messages for recognised guests. A built-in multilingual large language model handles questions and sales conversations.

Entertainment & promotion

An automatic parade mode with voice broadcasting, plus dancing and multimodal interaction, draws people in and drives traffic to what you sell.

Fleet & content management

A cloud platform configures interaction scripts, schedules tasks, pushes content and monitors robot status across multiple units, and integrates with existing business systems.

Navigation & guided tours

UBTECH's own U-SLAM system plans routes to centimetre precision; an upgraded depth-vision system supports guided tours through your space.

Smart-space hub

Connects to IoT devices — lights, curtains, air-conditioning, screens — to control and demonstrate them, acting as an intelligent display hub.

A full day on one charge

Command, scheduled and automatic charging modes. A single charge powers Cruze 1S for up to 8 hours, with 24 hours of standby.

 OBSTACLE
AVOIDANCE

BUILT FOR INTERACTION

Every part of Cruzr 1S has a job

6 + 0 microphone array

Voice pickup at up to 5 metres

Humanoid motion

15 high-performance servo motors across the body

360° obstacle avoidance

Stereo navigation with 6 sensors working together

Automatic recharging

Infrared auto-recharge sensor guides it to the dock

13-megapixel HD camera

High-definition vision for recognition and interaction

ToF cliff detector

Time-of-flight sensor prevents falls at edges and steps

Soft E-skin arms

Both arms covered in a highly soft, touch-friendly skin

Suspension drive

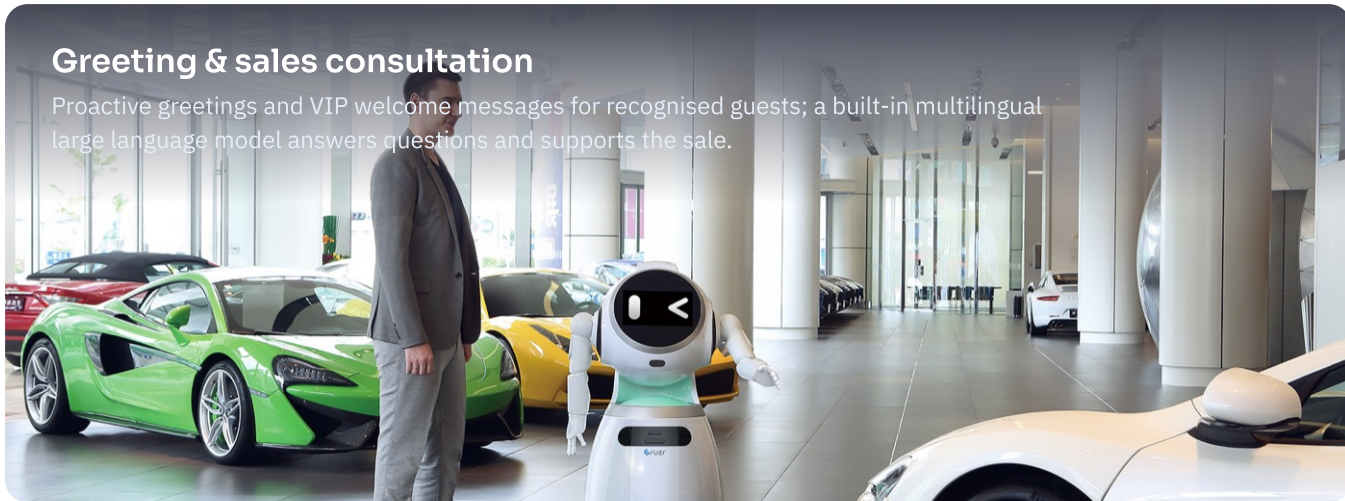

Wheel motors with shock-resistant suspension — quiet movement

HIGHLIGHTS

What sets Cruzr 1S apart

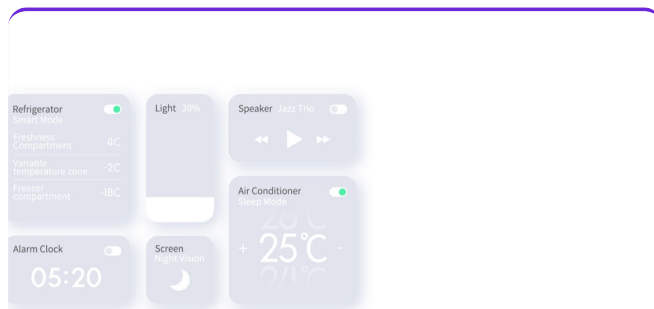

Greeting & sales consultation

Proactive greetings and VIP welcome messages for recognised guests; a built-in multilingual large language model answers questions and supports the sale.

Automatic recharging

Command, scheduled or automatic: it finds its dock by infrared and charges itself — up to 8 hours per charge, 24 hours standby.

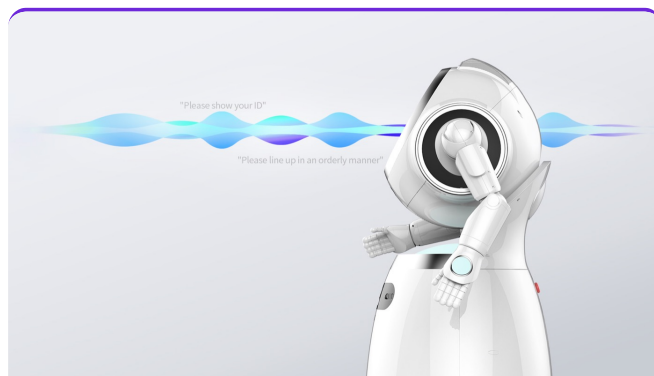

IoT smart-space control

Lights, curtains, air-conditioning, screens — Cruzr 1S connects to your IoT devices to control and demonstrate them, an intelligent display hub.

Guided tours with U-SLAM

Centimetre-level path planning and an upgraded depth-vision system guide visitors through museums, showrooms and offices.

Voice broadcasting & parade

Automatic parade mode announces, directs and promotes on the move — with dancing and multimodal interaction to draw a crowd.

One robot, many front doors

Hotels & resorts

Lobby welcome, wayfinding to rooms and facilities, concierge questions answered in the guest's language.

Retail & showrooms

Product promotion, parade-and-broadcast campaigns and demonstrations that turn footfall into conversations.

Healthcare

Waiting-room guidance, information delivery and queue support that frees staff for patients.

Corporate reception

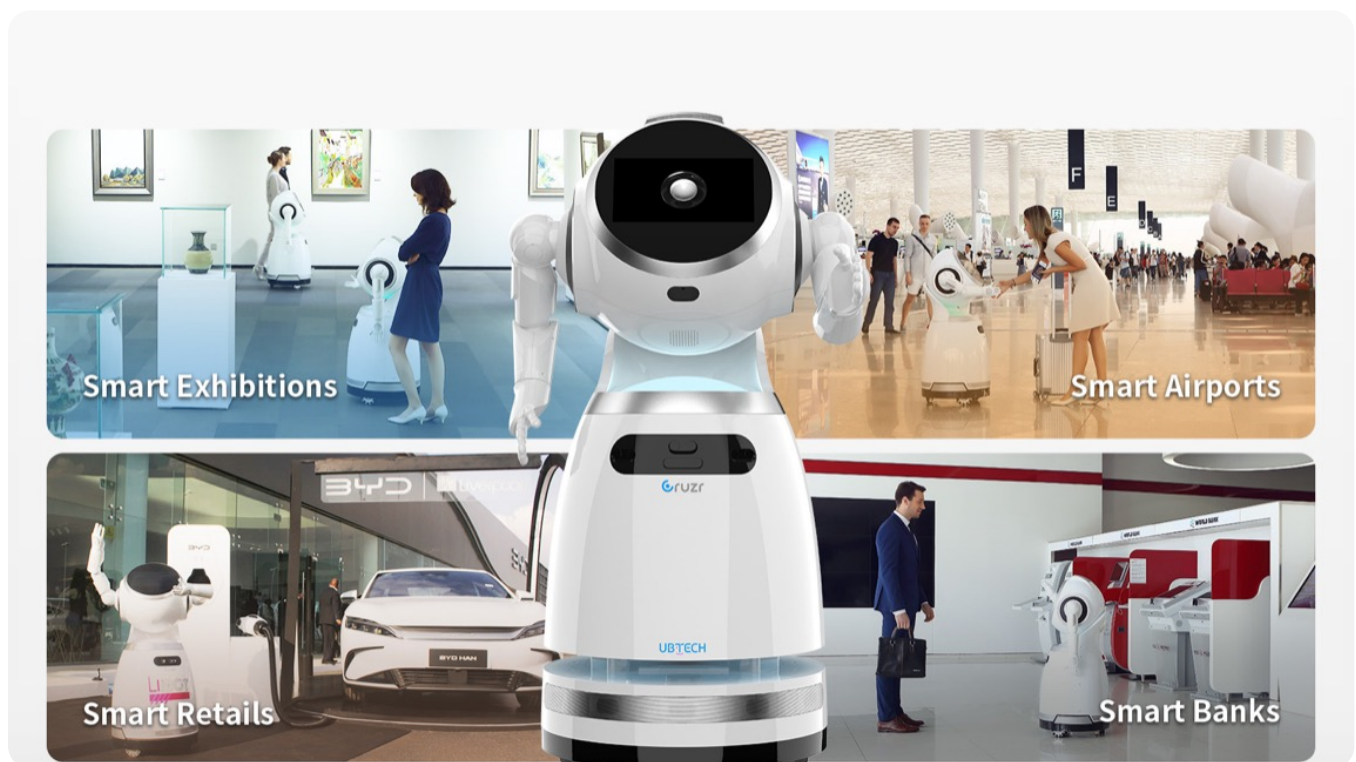

Visitor greeting, VIP recognition and guidance to meeting rooms — a consistent front-of-house presence.

Exhibitions & museums

Guided tours with multilingual explanation, centimetre-precise routes and scheduled programmes.

Restaurants & entertainment

Entrance greeting, dancing and promotions that make the venue memorable.

Interaction scripts, schedules and content are managed in UBTECH's cloud platform and pushed to one robot or a whole fleet; the platform integrates with your business systems so Cruzr 1S can answer with live information.

Cruze 1S at a glance

BODY & MOBILITY

Dimensions (H × W × D)	1195 × 521 × 516 mm
Weight	45 kg
Form factor	Wheeled humanoid with articulated arms and hands
Motion	15 high-performance servo motors · 15 DoF whole body, 12 DoF across both arms
Arms	Soft E-skin covering both arms
Drive	3 omni-directional wheels on hub motors, 360° and silent; suspension, shock-resistant
Speed	0.3 m/s normal · 1 m/s maximum
Safety	Emergency-stop button; ToF anti-fall cliff detector

SENSING & NAVIGATION

Navigation	UBTECH U-SLAM, centimetre-level path planning
Obstacle avoidance	Stereo, 6 sensors working together, 360°
LiDAR	Laser radar for mapping and localisation
Depth vision	RGBD depth-perception camera (upgraded depth visual system)
Proximity	Sonar (ultrasonic) and infrared sensors
Inertial	9-axis IMU; magnetometer; Hall sensor
Docking	Infrared recharge receiver on the robot, emitter on the dock

INTERACTION

Screen	11.6-inch TFT HD touchscreen — the expressive face display
Camera	13-megapixel HD camera, 1080p video
Microphones	6 + 0 array in the head, voice pickup at up to 5 m
Speakers	Two-channel stereo, 2 × 3-inch, 2 × 6 W; LED indicator light
Language AI	Built-in multilingual large language model for Q&A and sales support
Behaviours	Proactive greeting, VIP welcome, gestures, dancing, parade with voice broadcasting
Telepresence	Video monitoring and video calls; remote control of recharging, speed, language, voice and content

POWER

Battery	20 Ah, 24 V (approx. 480 Wh)
Runtime	Up to 8 hours per charge
Standby	24 hours
Charging modes	Command, scheduled and automatic (self-docking)
Dock	Magnetic charging plug and socket, copper electrode strip

SOFTWARE & CONNECTIVITY

Operating system	Android & ROS
Wi-Fi	2.4 GHz / 5 GHz
Management	Cloud platform for scripts, schedules, content and multi-robot monitoring
Integration	Business-system integration; IoT control of lights, curtains, air-conditioning and screens
